

Serving Christ by Serving Others

OPERATION EDUCATION

The Need:

Malawi is one of the poorest countries in the world, and has one of the lowest standards of education for public schools. Private schools and universities offer a much higher standard of education, but few can attend because few can afford tuition fees and associated expenses.

The Mission:

Provide quality education for members of an extended family in Blantyre, Malawi, to enable them to get good jobs that will benefit themselves, their family, neighborhood and community. This mission is accomplished through scholarships funded by sponsors to cover tuition, fees, text books, supplies and transit to and from school.

The Vision:

Operation Education is an investment in the future of Malawi. Quality education makes it possible to get quality jobs that improve the quality of life for individuals, families, and communities. After developing close relationships with members of the Readson household in Blantyre, Malawi, *Disciplers International* recognized great potential for them to make a positive difference in their future and community if properly equipped. *Operation Education* is a practical means to that end, and has thus far enabled three members of the Readson household to earn degrees in Community Development, Business Administration and Commercial Plumbing. Funding for *Operation Education* comes through people and organizations donating to the educational costs of one or more promising individuals. The vision of *Disciplers International* is for many more Malawians to have the same opportunity.
